« Common lands for sustainable management »

Project meeting

Rome (Lazio) June 9th, 2010.

- A: Cavallo Maremmano
- B: Cavallo Tolfetano
- C: Asino dell'Amiata
- D: Bovino Maremmano
- E: Asino Tolfetano

Project co-financed by the European Regional Development Fund

4th EC- Nitr - 89/04/2010

## BEST PRACTICE PRESENTATION

- **Partner:** ARSIAL – Regional Agency for the Development and Innovation of Agriculture in Lazio (Italy)
- **Action:** Common lands landscape: common and shared management of a territory aiming at active preservation of natural and agricultural biodiversity
- **Location:** The Allumiere Università Agraria

---

## Detailed Description of the action

The proposal's action enables to realise in an original way the permanence of the population in an area considered as marginal and it enables too the active conservation of a farming system able to preserve agrarian biodiversity integrate into a natural environment.

## Practice of farming and husbandry harmonised to the natural environment

- Introduction of certified organic farming system.
- Conservation of free grazing pasture.
- Active safeguard (on-farm conservation) of autochthonous animal populations (Maremmano cow, Tolfetano horse, Roman Latium Maremma horse, Allumierasco donkey), as stated by the regional Law 15/2000 – Arsial.
